

Benchmark Class

mark(mark_point)
elapsed_time(start_mark,end_point)
memory_usage()

receive()

data(item)

Template Parser Class

parse(template_name,data_array,boolean)
total()

total_items()

htmlspecialchars(string)
htmlspecialchars_decode(string)

protect_braced_quotes(boolean)

Field Data

list_fields(table_name)
field_exists(field_name,table_name)
field_data()

generate(year,month,array)

Shopping Cart Class

insert()
update()
cache_delete(controller,function)

cache_delete_all()

has_options(row_id)
options(row id)

FTP Class

connect(dbconfig_array)
upload(local_path,remote_path,mode,permission)
rename(file_path/name,new file_path/name)

call_function(function_name,param1,param2,etc.)

Database Caching Class

cache_on()
cache_off()
close()

cache_delete(controller,function)

cache_delete_all()

cache_delete_all()

Database Forge Class

create_database(db_name)

Trackback Class

send(trackback_array)
display_errors()
send_error(string)

move(source_path,destination_path)

delete_dir(dir_path)

list_files(dir_path)

mirror(source_dir_path,new_dir_path)

mkdirs(dir_path)

auto_typography(string)

generate(data_array or query)

set_caption(name,other_name,other_name)
